

## **INVITATION FOR TENDERS**

### **for Procurement of Road Asset Valuation Services**

SE „State Road Administration” informs you that the public tender no. 12/00042 for public procurement of road asset valuation services, CPV: 71324000-5 code, will be held on “10., December 2012. The necessary amount of funding for these services is allocated from Road Fund Resources Allocation Programme.

The objective of the services is to calculate asset value of the Moldova’s road network which comprises about 9 353 km of roads.

Road asset valuation services include the following major execution phases:

- a) Preparatory works;
- b) Measurement of IRI (International Index of Roughness) on roads paved with asphalt concrete and cement concrete;
- c) Visual study of the condition of all roads subject to valuation (as listed);
- d) Examination of the condition of the bridges longer than 10 meters, outbuildings and road plantations;
- e) Determination of costs for construction of new roads depending on the type of pavement;
- f) Determination the costs for construction of new bridges depending on materials used;
- g) Preparation of the valuation report on road asset that comprises:
  - Explanatory report;
  - Records of road asset value calculation for each road, comprising the following: (i) index and name of the road; (ii) beginning and end of the road (kilometric position); (iii) the total length of road, including the length of road sectors with the following types of pavement: cement concrete, asphalt concrete, bound course of local aggregates, paved, earth road; (iv) number of units and total length of bridges longer than 10 meters, including those made of: reinforced concrete, stone, metal and wood; (v) number of outbuildings and their ground surface; (vi) number of trees in road plantations, including nut trees and other species; (vii) the value of road asset specified in section 3-6 (economic value, depreciation, remaining value).

The assessment report prepared on analogue and digital media basis has to be presented to SE "State Road Administration" for examination and acceptance.

Requirements for tenderers. The tenderers shall meet the following criteria:

- a) The tenderer shall have minimum 5 (five) years of experience in the field of road asset valuation;
- b) The tenderer shall demonstrate that it has successful experience as a prime contractor in the execution of at least one contract of a nature and complexity comparable to the proposed contract within the last 3 (three) years;
- c) The tendering entity shall provide suitably qualified experts certified in real estate assessment by the institution authorized to issue such certificates;
- d) The tenderer shall propose a team of qualified experts with relevant experience in road design and artwork, including quantity engineers required for the execution of contract;
- e) The tenderer shall provide specialized personnel and equipment for measurement of International Index of Roughness (IRI) on public roads and alternative equipment for the successful execution of the contract.
